RE: Tower Standard Site, Lac du Flambeau Reservation

Dear Ms. Foss:

This letter responds to your August 19, 2015 correspondence about the Tower Standard Site on the Lac du Flambeau reservation. I appreciate your concern that any cleanup actions taken by the contractor funded by Wisconsin's Petroleum Environmental Cleanup Fund Award (PECFA) program be consistent with the State's rules for implementing that program.

The U.S. Environmental Protection Agency believes that the Wisconsin Department of Natural Resources (WDNR) actions under the PECFA program in reviewing and approving work at the site is appropriate where, as here, the Lac du Flambeau Band of Lake Superior Chippewa and EPA have agreed to the PECFA program assistance to the property owner. As such, the WDNR's actions are authorized, and jurisdictional issues need not arise.

Your letter contemplated requesting assistance from EPA at the Site under the One Cleanup Program Memorandum of Agreement (MOA) between EPA and WDNR. The One Cleanup MOA, however, only applies at sites outside of Indian country. Nevertheless EPA is, consistent with my previous correspondence, preparing to take action at the Site, and believes that doing so in cooperation with efforts under the State program is in the best interests of all parties. Toward that end, I again encourage WDNR to participate in a technical meeting with the Tribe and EPA regarding cleanup at the Site.

Sincerely,

Margaret Guerriero, Director
Land and Chemicals Division
